

## Thomas D. White 1942 -

Mr. White is the son of the late Erman B. and Helen M. White. He assumed the position of President of White & Ellis Drilling, Inc. in 1968. Although the company ceased its drilling operation in 1998, White & Ellis continues to operate production in both Eastern and Western Kansas and actively participates in oil and gas exploration.

The Erman B. White Gallery of Art at Butler Community College is dedicated to the memory of its namesake, the successful El Dorado oil businessman. The gallery was established as the result of a gift provided by Mrs. White and Thomas White. This generous gift allowed the White Gallery to open its doors in October 1992.
